Phillip A. Nye, MD, FASA

Diplomate of the American Board of Anesthesiology
& Sleep Medicine Specialist

In accordance with the Florida board of Medicine prescription drug policy, you may be subjected to a urine drug screen if your specific sleep disorder requires treatment using any controlled drug medications from this office. The patient will be responsible for the cost of the urine drug screen. You may go to any lab in the area your insurance provider deems fit for testing.

Thank you,

Anesthesia and Sleep Medicine Services of Florida
